intercable

Intercable è uno dei principali produttori al mondo di utensili elettrici professionali destinati ad aziende di distribuzione elettrica, applicazioni di potenza, appaltatori, elettricisti, industria, distributori di materiale elettrico. Il nostro obiettivo è migliorare l'efficienza, la sicurezza e la qualità del lavoro giornaliero dei nostri Clienti. Intercable è un'azienda a conduzione familiare fondata nel 1972 che oggi conta più di 900 collaboratori impiegati nei nostri stabilimenti in Italia, Germania e nel resto del mondo.

La nostra gamma prodotto è strutturata su un insieme articoli idonei alla preparazione dei cavi di bassa e media tensione e per la connessione elettrica composta da sei linee prodotto:

- Utensili isolati 1000V
- Attrezzature idrauliche e meccaniche per la crimpatura ed il taglio dei cavi
- Utensili per la spelatura
- Attrezzature elettriche per applicazioni speciali
- Accessori per l'installazione dei cavi
- Dispositivi di connessione

Siamo inoltre un'azienda leader nello sviluppo e la produzione di particolari speciali in plastica ed in metallo per il mercato automotive che ci rendono un partner affidabile dei principali produttori automobilistici del mondo.

La qualità dei nostri prodotti è il risultato di un'organizzazione efficace ed efficiente il cui sistema di gestione è certificato in accordo ai principali standard di gestione internazionali: ISO 9001; ISO/TS 16949 ed ISO 14001. Ci impegniamo ogni giorno per verificare e migliorare i nostri processi interni promuovendo il miglioramento continuo dell'organizzazione.

I nostri prodotti sono realizzati in accordo ai requisiti più esigenti dei principali standard mondiali in materia di sicurezza elettrica e sono certificati da enti e laboratori accreditati in Italia, Germania e nel resto del mondo come ad esempio VDE, BG, CESI, UL, CSA.

Il nostro obiettivo è sviluppare rapporti commerciali a lungo termine basati sulla fiducia ed il reciproco beneficio con i nostri clienti. Ogni giorno cerchiamo di identificare le aspettative e le richieste dei nostri clienti sviluppando soluzioni efficaci. Siamo impegnati per cogliere le sfide proposte dal mercato sviluppando e migliorando costantemente i nostri prodotti.

Siamo orgogliosi di essere un partner affidabile, efficace e flessibile per il mercato internazionale.

Intercable is one of the world's leading manufacturers of professional electrical products for Utilities, Power Boards, Contractors, Electricians and Industry. Our main ambition is to improve efficiency, safety and quality of our customers' daily work. As a family owned company, established in 1972, today we count more than 900 employees in our manufacturing plants located in Italy, Germany and the rest of the world.

Our product range is attuned to LV, MV and HV cable preparation and consists of six main product lines:

- Insulated safety tools up to 1000V
- Hydraulical and mechanical Crimping and Cutting tools
- Stripping tools
- Special electro technical devices
- Cable accessories
- Connection devices

Furthermore we are also leader in the development and production of special plastic and metal parts for the automotive market as an important partner of the biggest car and truck manufacturers worldwide.

Quality is not an accident but the result of advantageous application of a certified quality system: Our Company complies with the latest DIN EN ISO 9001:2008, ISO/TS 16949:2009 and ISO14001 International Standards. Constant internal and external audits help us to identify weaknesses and promote a continuous improvement in all the company processes.

Our tools are produced according to latest international IEC, DIN standards and are certified by independent, accredited German, Italian and the rest of the world test institutes such as VDE, BG, CESI, UL, CSA.

Our aim is a long lasting customer relation based on confidence. We daily try to recognize the demands and expectations of our customers to be able to fulfil them quickly and effectively but in any case to our customer's satisfaction. Further we satisfy the changing market needs by a constant improvement and development of our product range.

We are proud to be known as an expert and flexible partner on the international market.

INTERCABLE SI DISTINGUE PER L'ALTA QUALITÀ

Un'organizzazione efficiente nonché un sistema di qualità secondo gli standard internazionali EN ISO 9001 garantiscono processi ottimizzati e un continuo miglioramento. Sia la progettazione interna e relativa produzione nei nostri stabilimenti in Italia e in Germania che l'impegno dei nostri collaboratori qualificati fanno parte del nostro successo.

INTERCABLE STANDS FOR HIGH QUALITY

Products and service! An efficient organisation, as well as a quality management according to the EN ISO 9001 international standards, guarantee optimum processes and continual improvement.

In-house design and production in Italy and Germany and full commitment of our highly trained personell is our main recipe of success.

Assembling of hydraulic tools in the headquarter

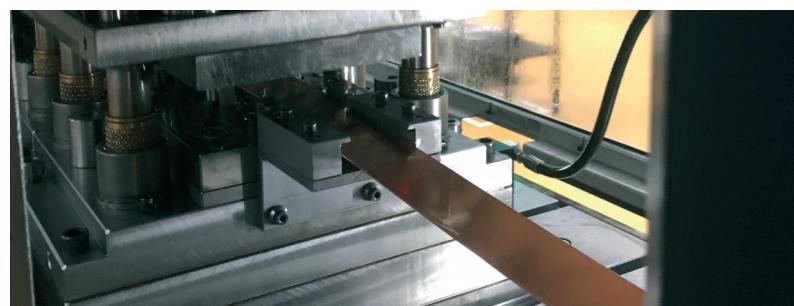

TECNOLOGIA È LA NOSTRA PASSIONE

I nostri specialisti hanno un unico obiettivo: sviluppare e produrre prodotti per contribuire alla massima sicurezza a chi ci lavora quotidianamente. L'innovazione e le più recenti tecnologie sono la chiave del nostro successo e il continuo miglioramento.

TECHNOLOGY IS OUR PASSION

Our specialists set themselves a clear goal: provide workers in the electrical technology sector with the very best tools and equipment for performing their daily tasks.

Our own innovation department with its highest qualified experts and the latest technologies in the planning and construction sector is the guarantee for our success and the continuous improvements.

IL KNOW-HOW PER LA SICUREZZA

Test di sicurezza su ogni singolo utensile

Ogni singolo utensile certificato (CE/EN 60900) (identificato dal doppio triangolo e il segno 1000V) prodotto dalla Intercable viene sottoposto ad una prova di tensione di 10.000 Volt in un bagno d'acqua o di sfere d'acciaio per 10 secondi.

Prove tecniche su ogni singolo utensile

Ogni utensile oleodinamico prodotto dalla Intercable viene sottomesso ad una serie di rigide prove tecniche. Il certificato di collaudo viene fornito assieme con l'utensile ed è tracciabile tramite il numero di serie.

OUR KNOW-HOW FOR YOUR SAFETY

Safety tests on every single tool

Every single CE/EN 60900 certified tool (identified by the double triangle and the 1000V sign) produced by Intercable undergoes a 10,000 Volt voltage test in a water bath or with steel balls for 10 seconds.

Technical tests on every single tool

Each hydraulic tool produced by Intercable is subjected to a series of particularly severe technical tests. The test certificate is enclosed to the tool and traceable by the serial number.

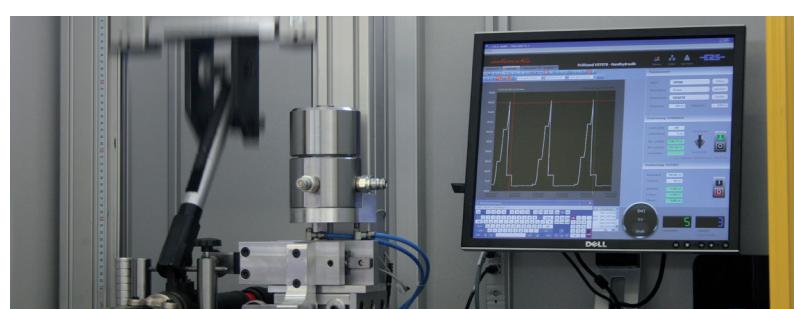

Prova di trazione
Tensile test

Technical tests on every single tool

Each hydraulic tool produced by Intercable is subjected to a series of particularly severe technical tests. The test certificate is enclosed to the tool and traceable by the serial number.

Academy è un'iniziativa del gruppo Intercable finalizzata a fornire un servizio di formazione riguardo ad argomenti relativi alla connessione elettrica. È un servizio rivolto a tutti gli operatori del settore elettrico interessati ad approfondire temi relativi ai sistemi di connessione per operare nel proprio lavoro in modo sicuro, facile ed efficiente.

Richiedi ulteriori informazioni a:
academy@intercable.com

Academy is an initiative of Intercable group with the target to provide a training service about topics relating to the electrical connection. It is a service opened to all the players in the electrical business interested in exploring topics related to electrical connection systems for operating in their everyday work in a safe, easy and efficient way.

CERTIFICATI DI QUALITÀ QUALITY CERTIFICATIONS

This is to certify that

INTERCABLE s.r.l.
Via campi della Rienza, 21
39031 Brunico
Italy

with the organizational units/sites as listed in the annex

has implemented and maintains a **Quality Management System**.

Scope:
Design and manufacturing of technical plastic and metal parts

Through an audit, documented in a report, it was verified that the management system fulfills the requirements of the following standard:

ISO 9001 : 2008

Certificate registration no. 067378 QM08
Valid from 2016-06-13
Valid until 2018-09-14
Date of certification 2016-06-01

MATERIALE DI CONNESSIONE PER LINEE B.T. E M.T.
CONNECTION SYSTEMS FOR L.V. AND M.V. LINES

CAPICORDA BIMETALLICI AI/Cu AD OCCHIELLO PER CAVI IN ALLUMINIO M.T.
BIMETALLIC AI/Cu RING TERMINALS FOR M.V. ALUMINUM CONDUCTORS

Materiali:

- occhiello: rame elettrolitico Cu-ETP 99,95
- colletto: alluminio P-Al 99,5

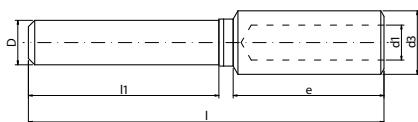

Il colletto di alluminio è riempito con grasso ad alto punto di goccia e protetto con tappo in plastica.

Materials:

- ring: electrolytic copper Cu-ETP 99,95
- lug: aluminum P-Al 99,5

The aluminum lug is filled with grease with high dropping point and capped with a plastic stop-end.

MORSETTIERE TERMINAL BLOCKS

GAMMA PRODOTTO

- La nostra gamma include tutti i principali prodotti per la connessione e la distribuzione dei cavi.
- La gamma è composta dai morsetti unipolari e dalle morsettiere multipolari.

RANGE PRODUCT

- Our range includes all major products for the access and distribution of cables.
- The range consists of the single-pole terminal and the multi-pole terminal blocks.

CAMPO DI UTILIZZO

- La gamma consente il collegamento o la derivazione di cavi per sez. da 0,5 mm² a 70 mm².
- Possono essere impiegati nelle connessioni per uso civile e/o per connessioni dedicate a piccoli e grandi elettrodomestici.

INTENDED USE

- The range allows to connect cable derivation section from 0.5 mm² to 70 mm².
- They can be employed for civil use and / or for dedicated connections in small and large appliances.

CERTIFICAZIONI E NORME

EN 60998-1:2004
EN 60998-2-1:2004

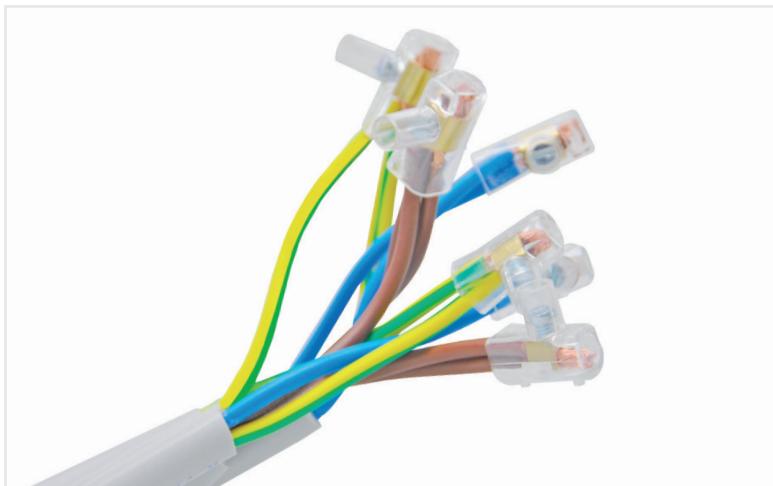

CERTIFICATION AND STANDARDS

EN 60998-1:2004
EN 60998-2-1:2004

MORSETTI UNIPOLARI
SINGLE - POLE TERMINAL BLOCKS

Facile separazione dei poli
Easy separation between terminals

Rimozione perfetta senza residui di materiale
Easy separation of single poles, without material residue

MATERIALI

- Involucro: Policarbonato trasparente autoestinguente
- Corpo conduttore: Ottone CW 614 N
- Viti/grani: Acciaio zincato

MATERIALS

- Insulated body: self-extinguishing transparent polycarbonate
- Conductive case: brass CW 614 N
- Screws/dowels: zinc-plated steel

CARATTERISTICHE TECNICHE

- Grado di protezione IP 20 (1,5 - 10 mm²)
- Grado di protezione IP 00 (16 - 70 mm²)
- Rigidità dielettrica elevata
- Resistenza elevata alle correnti superficiali
- Grado di infiammabilità secondo UL 94-V2
- Resistenza al calore 130°C
- Prova del filo incandescente a 850°C
- Serraggio a vite

TECHNICAL SPECIFICATIONS

- Protection degree IP 20 (1,5 - 10 mm²)
- Protection degree IP 00 (16 - 70 mm²)
- High dielectric strength
- High resistance to tracking currents
- Flammability grade according to UL 94-V2
- Heat resistance 130°C
- 850°C to glow wire test
- Threaded tightening

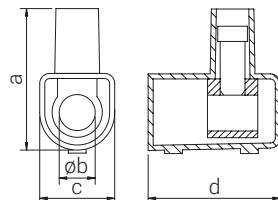

VANTAGGI

- Involucro trasparente per una perfetta visibilità della connessione
- Inserimento rapido dei cavi facilitato dalla conicità dell'involucro
- Impiego versatile dei conduttori flessibili, rigidi e flessibili con puntalini
- Separazione facile dei singoli poli, senza residuidi materiale (serie in stecca)
- Nei modelli MVU25 MVU35, modularità di montaggio con innovativo sistema di aggancio/sgancio su ciascun polo

ADVANTAGES

- Transparent casing allows perfect visibility of connections
- Fast wire clipping thanks to conical shape casing
- Adaptable use with flexible, rigid and flexible conductors with ferrules
- Easy separation of single poles, without material residue, in the bar series
- In MVU50 MVU70 models, modular mounting with innovative patent pending coupling/decoupling system with tabs on each pole

MORSETTI UNIPOLARI PER CONNESSIONI VOLANTI SINGLE-POLE TERMINAL BLOCKS

Temperatura di esercizio: 85°C

Materiali:

- policarbonato trasparente, UL94-V2, GWT 850°C
- morsetto: ottone CW 614 N
- viti/dadi: acciaio zincato

Operating temperature: 85°C

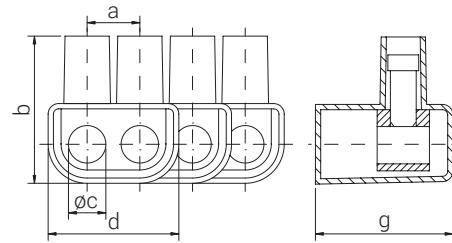

Materials:

- transparent polycarbonate, UL94-V2, GWT 850°C
- cage insert: brass CW 614 N
- screws/dowels: zinc-plated steel

- Insulated body: polypropylene (PP), polyammide (PA-V2), polyammide (PA-V0)
- Conductive case: brass CW 614 N
- Screws/dowels: zinc-plated steel

CARATTERISTICHE TECNICHE

- Grado di protezione IP 20
- Temperatura di esercizio da 85°C a 140°C
- Grado di infiammabilità UL94-V2
- Prova del filo incandescente a 850°C
- Versione V0 - GTW a 750°C - EN 63335-1:2002 + A2: 2006 (Par,30,2,3)
- IEC 60695-2-11
- Serraggio indiretto a lamella per la gamma in poliammide

TECHNICAL SPECIFICATIONS

- Protection degree IP 20
- Operating temperature from 85°C to 140°C
- Infammability grade according to UL 94-V2
- 850°C to glow wire test
- Version V0 - GTW a 750°C - EN 63335-1:2002 + A2:2006 (Par,30,2,3)
- IEC 60695-2-11
- Thin plate indirect clamping for the series in polyammide

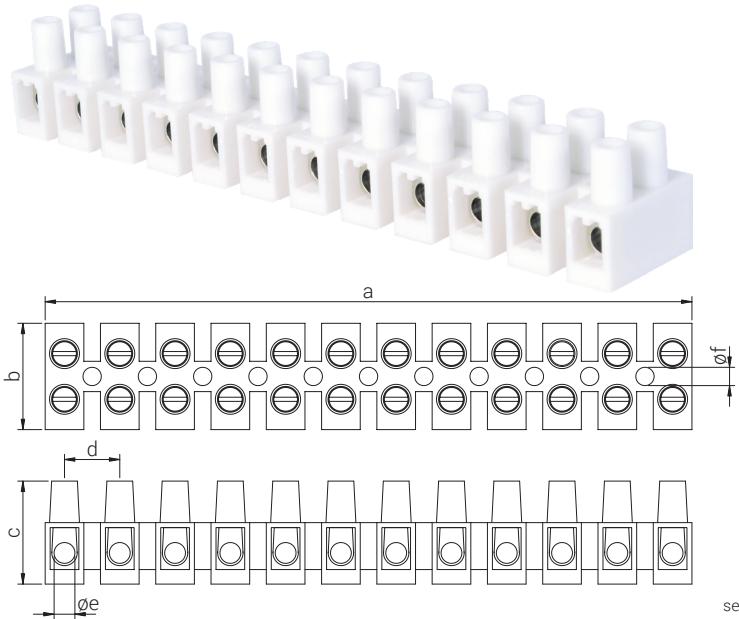

VANTAGGI

- Protezione elevata contro l'ossidazione grazie l'inserto in ottone nichelato e alle viti di serraggio zincate
- Versatilità di applicazione con possibilità di sciegliere gamme differenti a seconda delle condizioni di installazione
- Resistenza elevata agli urti anche alle basse temperature
- Resistenza elevata alle vibrazioni grazie alla buona elasticità materiale
- Il posizionamento preciso della vite garantisce una distanza per un facile ingresso del conduttore

ADVANTAGES

- High protection against oxidation, thanks to nickel-plated brass insert and zinc-plated clamping screw
- application flexibility with the possibility to choose different array of products, according the installation condition
- High strength against impacts even at low temperatures
- High strength against vibration and thanks to good material elasticity
- The precise positioning of the screw guarantee a clearance for an easy-entry of conductor

MORSETTIERE IN CERAMICA PORCELLAIN BLOCKS

MATERIALI

- Involucro: Ceramica Bianca
- Morsetto: Ottone nichelato
- Viti: Acciaio zincato

MATERIALS

- Insulated body: Porcelain
- Cage inserts: Nickel-plated brass
- Screws: zinc-plated steel

CARATTERISTICHE TECNICHE

- Temperatura di esercizio max 350°C
- Prova del filo incandescente a 960°C conforme a EN 60995-2-11

TECHNICAL SPECIFICATIONS

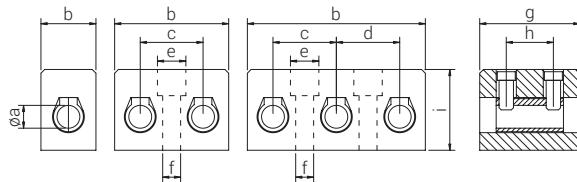

- Operating temperature max 350°C
- 960°C to glow wire test according to EN 60995-2-11

VANTAGGI

- Protezione elevata contro l'ossidazione grazie l'inserto in ottone nichelato e alle viti di serraggio zincate
- Versatilità di applicazione con possibilità di scegliere gamme differenti a seconda delle condizioni di installazione
- Resistenza elevata agli urti anche alle basse temperature
- Utilizzo per connessioni elettriche con conduttori in rame in installazioni e apparecchi che funzionano in condizioni di elevata temperatura

ADVANTAGES

- High protection against oxidation, thanks to nickel-plated brass insert and zinc-plated clamping screw
- application flexibility with the possibility to choose different array of products, according the installation condition
- High strength against impacts even at low temperatures
- Use for making electrical connections with copper conductors in installations and appliances working in high temperature conditions

PRESSACAVI IN POLIAMMIDE PA6 - IP68
 POLYAMIDE PA6 CABLE GLANDS - IP68

High Performance

Grado di protezione IP68 - 5 bar

Materiale:

- ①/③ poliammide PA6 (autoestinguente UL94-V2)
- ② guarnizione: neoprene 70 shore A
- Temperatura di esercizio: -40°C ÷ 100°C
- Colore: grigio RAL7035

Degree of protection: IP68 - 5 bar

Material:

- ①/③ polyamide PA6 (self extinguished UL94-V2)
- ② sealing: neoprene 70 shore A
- Operatting temperature: -40°C ÷ 100°C
- Colour: grey RAL7035
